

# Let's give refugees another way to safety

## SIGN OUR PETITION TODAY

**Tell the Home Secretary enough is enough – the UK must make greater efforts to reunite divided refugee families.**

Refugee Action believes refugees should be able to be reunited with their dependent family members. But at the moment, the UK's restrictive refugee family reunion rules are keeping families apart and leaving people at risk.

We want to see the eligibility criteria for refugee family reunion widened to recognise all relationships where the family members are dependent on the refugee. This fairer system would protect vulnerable people by giving them a safe and legal route to reach their relatives.

**ACT NOW** – Sign our petition **before 19 September 2016** to tell Home Secretary that she **must** do more to help reunite these divided families.
